THE CENTRAL INTELLIGENCE
DEPARTMENT OF COMMERCE
BUREAU OF THE CENSUS

2. The second part of the paper discusses the impact of the 1997 Asian financial crisis on the performance of the Asian economies. The paper argues that the crisis has led to a significant decline in the growth rates of the Asian economies, and that the impact of the crisis has been particularly severe on the economies of the Asian countries that are heavily dependent on exports. The paper also discusses the impact of the crisis on the Asian financial markets, and the impact of the crisis on the Asian economies' foreign trade.

BUREAU OF THE CENSUS

100

1. *Chlorophyll a* (Chl a) and *Chlorophyll b* (Chl b) are the two main photosynthetic pigments in green plants. They are responsible for capturing light energy and converting it into chemical energy through the process of photosynthesis. Chl a is the primary pigment, while Chl b acts as an accessory pigment, transferring energy to Chl a.
